

THE CORWIN'S CRUISE

No Tidings from the Missing Jeanette.

BOWDOIN COLLEGE.

Annual Meeting of the Alumni Association.

Bath, N. J., July 13.—The Alumni Association met in Adams Hall this morning. Prof. J. B. Sewall in the chair. The executive committee reported that the interest of the Alumni Association in Memorial Hall was transferred to the College on condition of its assuming the debt. The following were candidates for positions on the board of officers:

Melvin W. Fuller, class of 1883, Chicago; Edward Stanwood, 1861, of the Boston Advertiser.

The following officers were elected for the ensuing year:

President—Hon. Josiah Crosby, of Bangor. Vice President—Hon. Joseph W. Strouds, of Portland.

Secretary and Treasurer—Professor F. C. Robinson.

The following members of the class of 1881 were admitted to membership:

Charles H. Cutler, Fred A. Fisher, Albert D. Gray, Henry S. Staples, Frank E. Smith, William T. Cole, Clinton L. Baxter, Fred C. Stevens, Carroll B. Harding, William A. Gardner.

John J. Herrick, of the class of 1866, was elected a member.

The class of 1850 held their quarterly centennial reunion to-day. There are 28 surviving members, of whom twenty-four were present.

Forty-four have died. There have been born to the class 86 children, whom 54 are living. Prentiss Loring is the only living Portland member.

The board have held a session to-day, but no action on matters presented will not be taken before the next meeting.

At three o'clock the alumni formed in procession at the chapel and proceeded to the First Parish church to music by Chandler.

A fair service assembled to listen to an address by Rev. Cyrus A. Smith, D. D., of Boston, of the class of 1852. His subject was "The Influence of Man."

His argument was extremely close and logical, and was listened to with a great degree of interest.

In the evening, instead of the customary commencement concert by Chandler's grand band (25 pieces) on the Campus.

As the evening was very fine, this part of the programme was eagerly accepted by hosts of lovers of music and moonlight.

Barrett Potter, class of '78, afforded a very pleasant hour to the members of his class during the early evening by furnishing them with the delicate "afternoon tea," with the usual indispensable accompaniment of a proper number of Brunswick's finest young ladies.

In addition the classes of '78, '81 and '86 also held reunions. The present year the members of the latter class met to accept the pleasure of a reception from their honored and distinguished member, Hon. W. L. Putnam of Portland, at his residence in that city, some time during the week.

The last hours of the evening were occupied by various society meetings, which formed one of the pleasantest features to the alumni and visiting members.

To-morrow will be commencement day, with its diplomas, dinner and President's reception. Candidates for admission will be examined on Friday.

MURDERED FOR TEN CENTS.

A Shocking Tragedy at Rockport.

A Boy Deliberately Drowned by Two Youthful Companions.

Rockport, Mass., July 13.—Willie Cain, of Rockport, aged ten, reported missing since yesterday, is found to have been murdered.

He was taken up in a punt on the Lily Pond by Ralph B. Richards, aged fourteen, and Edward T. Gross, aged 15, who were his friends.

They were seen to throw him overboard and drown him if he did not give them twenty cents to be set on shore, when one of them—it is believed to be Willie—pushed him overboard.

They say he came up twice, and then sank. The body has not been recovered. The boys are hard cases, and have previously been in charge for theft. The deputy sheriff has them in charge.

NOT KILLED.

The Wife of Benjamin Crossman Found.

HORRIBLY AND PROBABLY FATALY BEATEN.

Bath, July 12.—Benjamin Crossman's wife, supposed to have been murdered, was found in the woods near the Edgemoor camp yesterday, shockingly mutilated, and taken to the house of Capt. Alden Pinkham where she now lies. During a short season of consciousness she related that the way home from Wiscasset, Crossman fell out of the boat, and after great exertions, she got him in, when he commenced beating her with his fist and afterwards cut her with a broken knife. Her recovery is hardly possible.

MAINE.

The Maine Farmer's Estimate of the Crops.

Augusta, July 13.—The Maine Farmer will to-morrow publish a report on the crop conditions in various parts of the State showing the condition of the crops on the first of July. It will be a little before the average and having late. Other crops are backward, but coming forward in amount to be injured by frosts and high winds and the yield will be below the average.

THE POSTAL SERVICE.

A Reduction of \$1,300,000 Since March. WASHINGTON, July 13.—Report by Postmaster General James shows that the Post Office has saved \$1,300,000 since March 1st to June 30th, 1881.

Assistant Postmaster General Elmer says that the reduction was obtained by the most judicious use of the fiscal year. The reduction was made the aggregate over \$1,300,000, but the savings were not made in season to include them in the June statement. Notwithstanding this great decrease in the amount of service performed, no general complaint has been heard from any quarter of inefficient mail delivery.

The New Jersey Railroad Accident. LAKELAND, N. J., July 13.—The water tower of the New Jersey Railroad, which was injured by the disaster to the New Jersey Southern train at Lake Carmichael, is in a fair way of recovery except for the water tower. This morning Robinson gained consciousness. His injuries are internal and his spine is fractured. The condition of Major Parker is improving. The superintendent, it is said, cannot be removed. The train which carried the injured passengers, it is said, was the old-fashioned bridge is an inferior structure.

The Tennessee Funding Board. NASHVILLE, Tenn., July 13.—Chancellor Marshall dissolved the bill of injunction against the State Funding Board for want of equity on its face. An appeal was taken to the Supreme Court, where the bill goes for final decision.

The Dominion Wheat Crop. TORONTO, July 13.—The wheat crop of the Dominion will be one-half per cent below last year in fall wheat and one per cent below in spring wheat. Barley, oats and peas give the average. The corn crop is slightly below the average. The hay crop is 10 per cent short.

The Torrid Wave. CHICAGO, July 12.—At various points in Illinois yesterday the mercury reached 90° and several fatal sunstrokes have occurred. There has been no rain for several days.

Six Counterfeiters Arrested and Two of them Recused. WASHINGTON, July 13.—Six counterfeiters were arrested yesterday in Tennessee. Two subsequently recused from the marshals at Morrisville.

Base Ball. At Buffalo—Buffalo 7, Buffalo 5.

At Chicago—Chicago 6, Worcester 1.

THE PRESIDENT'S CONDITION

Marked Improvement Manifest Yesterday.

HIS TEMPERATURE NORMAL AND RESPIRATION NEARLY SO.

Physicians Very Confident of Recovery.

San Francisco, July 13.—Capt. C. L. Hooper, commanding Corwin, writes from Flavia Bay, Siberia, under date of June 13th, saying: "We have reached the Arctic on the 30th. The day was clear and the ice in the bay, 30 deg. 10 min. north, 150 deg. 35 min. west, and had to steer several days by a jury rig. The sea was calm and the weather clear. We landed a party consisting of Lieut. Herring and Reynolds, an aman and two natives, equipped with 25 dogs and sleds, with two months' rations, arms, ammunition, plenty of fur clothing, tent and skin boat, with instructions to follow the coast of Asia as far north as Jachin for tidings of the Jeannette. The party landed on the coast of Cape North and found the wreck of two whalers, supposed to be the Vigilant and Mount Wollaston. From the Captain of the latter, we learned that the last boat of the latter left November at North Cape and found the bodies of the crew. The Wollaston was found eight miles further north. Both vessels were stove in and full of water. On the wrecked vessel, we found a letter from Hooper. He said, would endeavor to get every information and get back to St. Michael's by the 15th. We then caught the steamer St. Paul, and forward details. The letter from the Wollaston was dated July 1st, when the whalers left for that of 1887, when they all went to Wrangell Land.

The Corwin's voyage got further west than she could get last year. She got caught in a heavy fog on July 10, during a blizzard of wind and rain, and broke her rudder against a huge piece and broke her rudder. When in 1887, the Corwin was stuck in the ice of the bay.

ON THE WAY TO RECOVERY

Dr. Hamilton's View of the President's Condition.

SLOW PROGRESS ON THE LAND BILL.

SPAIN SENDING TROOPS AND GUNS TO MOROCCO.

Stax Still Holding Out Against the French.

International Homeopathic Convention. LONDON, July 13.—The first meeting of the International Homeopathic Convention of 1881 was held here yesterday. Dr. Hughes, president of the convention, said it was a bold thing for him to make an appointment to meet again in five years as they did in Philadelphia last year. He made some very practical suggestions, the most important being that there should be one homeopathic pharmacopoeia for all countries, and that the laws governing the practice of homeopathy should be uniformed in all countries. Dr. Hughes, president of the convention, said it was a bold thing for him to make an appointment to meet again in five years as they did in Philadelphia last year. He made some very practical suggestions, the most important being that there should be one homeopathic pharmacopoeia for all countries, and that the laws governing the practice of homeopathy should be uniformed in all countries.

Spanish Preparations in Africa. The Spanish Government has decided to reinforce the garrisons at Cuesta, Melilla and other stations on the coast of Morocco. Several battalions of troops are about to embark, besides artillery and heavy guns, for operations in Africa. The French and Spanish preparations taken in connection with French reinforcements in Africa.

The Orange and the Irish Land League. DUBLIN, July 13.—The assertions of the leaders of the League that the Orangemen had largely abandoned the principles of the League were not corroborated by any testimony submitted yesterday by the Orangemen. The Orange meetings were so largely attended as to prove the contrary.

A Grand Holiday in Paris. PARIS, July 13.—The papers say the fête of the revolution and of the republic on Thursday last, 15th July, the 91st anniversary of the taking of the Bastille, will be celebrated with all the pomp and circumstance of a national festival. The official buildings are resplendent with decorations everywhere. The city is already assumed a semi-festive appearance. The official buildings are resplendent with decorations everywhere. The city is already assumed a semi-festive appearance.

Striptease at the Casino. For the week ending Wednesday, July 13, the Casino at Monte Carlo, 15th July, 1881, the following results were obtained: 1st prize, 100,000 francs; 2nd prize, 50,000 francs; 3rd prize, 25,000 francs; 4th prize, 10,000 francs; 5th prize, 5,000 francs; 6th prize, 2,500 francs; 7th prize, 1,000 francs; 8th prize, 500 francs; 9th prize, 250 francs; 10th prize, 100 francs.

For the week ending Wednesday, July 13, the Casino at Monte Carlo, 15th July, 1881, the following results were obtained: 1st prize, 100,000 francs; 2nd prize, 50,000 francs; 3rd prize, 25,000 francs; 4th prize, 10,000 francs; 5th prize, 5,000 francs; 6th prize, 2,500 francs; 7th prize, 1,000 francs; 8th prize, 500 francs; 9th prize, 250 francs; 10th prize, 100 francs.

For the week ending Wednesday, July 13, the Casino at Monte Carlo, 15th July, 1881, the following results were obtained: 1st prize, 100,000 francs; 2nd prize, 50,000 francs; 3rd prize, 25,000 francs; 4th prize, 10,000 francs; 5th prize, 5,000 francs; 6th prize, 2,500 francs; 7th prize, 1,000 francs; 8th prize, 500 francs; 9th prize, 250 francs; 10th prize, 100 francs.
